

# Mac Washing Machine X9

Mac cleaner software to optimize, organize and speed up your Mac

Intego Washing Machine X9 makes it easy to increase your Mac's speed and boost performance by scrubbing away old and unused files that bog it down. Use Mac Washing Machine X9 to recover disk space by locating unnecessary duplicate files that could be wasting space, organize your Mac to increase productivity and keep your Desktop clutter free, and create Smart Folders for quick access to frequently used files.

## Clean Up and Speed Up Your Mac in a Jiffy

Most hard drives will begin to show serious performance degradation as they fill up, but manually freeing disk space can be a tedious process. That's why we designed Mac Washing Machine X9 to be an easy-to-use utility that will simply and effectively boost your Mac's performance. It's finally easy to clean and speed up your Mac.

## Mac Washing Machine Optimizes Your Mac

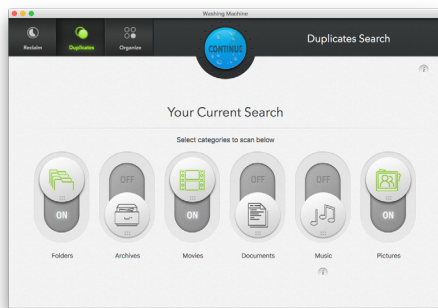

Intego Mac Washing Machine X9 speeds up your Mac by reclaiming space on your startup drive. And it does so much more. It seeks out and removes duplicates and other unneeded files, frees up hard disk space to speed up the operating system, organizes the Dock and Desktop, and lets you create Smart Folders for quick access to frequently used files.

"Washing Machine's performance is amazing. It found a lot more than other Mac cleaners [...] it did fantastic, better than others by far!"

– The High Tech Society

## Intego Mac Washing Machine performs the following tasks:

- ▶ **Reclaims Space:** Seeks out files you no longer use or need and quickly cleans them from your machine, freeing up gigabytes of space and increasing Mac performance. These files include downloads, caches, logs and trash.
- ▶ **Finds Duplicates:** Identifies duplicate files by analyzing the bits, and lets you select which versions to remove. Other Mac cleaners find duplicates by using basic techniques that fail to identify all duplicates.
- ▶ **Creates Smart Folders:** A powerful OS tool, Smart Folders offer quick access to frequently used files and applications. Smart Folders can be added to finder favorites.
- ▶ **Organizes the Dock:** Shows what apps are used the most (or least) and allows you to quickly drag the apps to or from the Dock.
- ▶ **Cleans up Desktop Files:** Moves files on the desktop to the appropriate finder folders or the trash.

### Reclaim Space: Lose that Unwanted File Baggage

There are lots of files on your computer that you simply don't need: caches no longer in use, language files for languages you don't even speak, and many more. Use Washing Machine X9 to hunt down these files so your computer can run faster and more efficiently.

### Get Rid of Duplicates: Lose those Redundant Files

Chances are, you have a lot of redundant files on your computer—not backups, but duplicates you don't even know about (and certainly don't need). Mac Washing Machine X9 identifies these useless hangers-on and lets you get rid of them in a click. Making more space for things that matter.

### Get Organized: Whip your Desktop, Dock & Files into Shape

Clutter is the enemy of efficiency. Mac Washing Machine X9 can automatically organize your heap of desktop files into the right folders. It also shows you which apps you use most often and allows you to drag and drop them to and from your Dock with ease.

#### System Requirements:

- Mac® computer with Intel® Core 2 Duo processor
- Mac OS X 10.8 or higher
- 1.5 GB of available hard disk space
- Secure Internet (https) connection required for License Authentication, and Online Manual

**Mac Washing Machine X9 is available in:**  
English, French, German, Spanish, Japanese
